AASA Membership Eligibility:

Regular Member

Established companies of good repute and sound financial condition, actually engaged in the manufacturing, production, formulation or re-manufacturing of products for the automotive aftermarket or related business with at least one facility in North America shall be eligible for regular membership in AASA when approved by the Board of Governors.

Division/Product Line Membership

Subsidiaries, divisions or operating units of member companies have the right to apply for membership in the Association provided they meet the association's requirements. Upon approval they shall enjoy all membership services (except for voting privileges).

Membership Dues:

AASA dues are based on the annual North American sales volume of automotive products by member companies. Please check the box next to the sales volume of your company. The right-hand column shows your annual dues. Membership dues for affiliate, division and publishers are a fixed price regardless of sales volume. Dues amount will be prorated, based on application date.
